

Protect Elbert County's Environment!

County Wide Meeting

Saturday, February 19

1:00 PM

**Kiowa Fire Dept. Community Bld.
Next to the fire station in Kiowa**

Please bring a friend!!

Agenda

This will be a one hour meeting.

- Update on the project
- Supporting ECEA
- Commissioner's meetings
- Xcel's Open House – March 1
- Questions/Answers

Help in the fight against Xcel's proposed power pathway project that will cut right through the heart of Elbert County – this project will only provide power to the Denver Metro Area! These power lines will then open the gateway to wind and solar farms along the route.

The Elbert County Environmental Alliance (ECEA) is a grassroots group that has organized to fight this destruction of our county.

Mission: Protect our community by minimizing the environmental and economic degradation from Segment 5 of the CO Power Pathway Project (CPPP) within Elbert County.

Objectives:

- Maintain healthy lifestyles for our families
- Protect wildlife
- Protect our local economy
- Protect the beauty of our county
- Protect the historic Bijou Basin
- Maintain property value
- Limit the spread of big city resource requirements being built within our small county.
