

Elbert County, Take Action Now!

It's In Our Nature!!

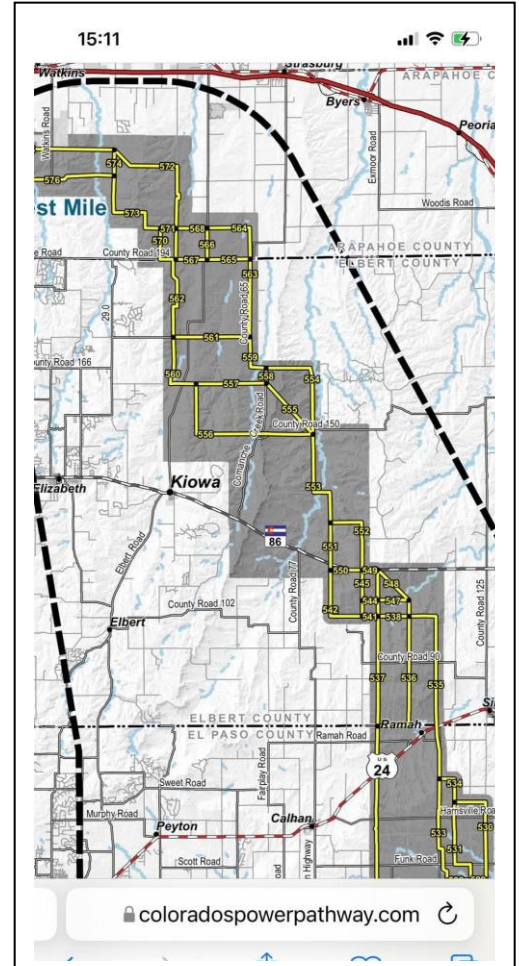

Xcel is planning to put high voltage power lines right through the heart of Elbert County!

Why? To supply power to the Metro area - not Elbert County

When? They are hoping for approval at the beginning of 2022

These lines:

- are 120 ft. tall
- are health hazards
- create nuisance noise
- are devastating to wildlife habitat
- decrease property values 45%
- permanently destroy the beauty of large swaths of Elbert County!
